

# About Our Talent

Whether it's for raising brand awareness or expressing gratitude to your clients, we will manifest your vision to reality with our distinct range of executive and travel accessories. Inkwell Designers offers both monogram and logo imprinting services, and with each custom order personally managed by our team, we guarantee a gifting experience that exceptionally reflects your personal and professional brands. In addition, the Inkwell Designer's monogramming team travels globally to provide on-site monogram gifting events for leading luxury brands and Fortune 500 companies seeking to elevate their experiential marketing initiatives.

# Engraving

Our wedding and corporate hand engraving service is unlike any other. We hand engrave calligraphy on glass, metal, crystal and almost any surface you can imagine. What a great idea for a wedding gift for the bride and groom!

How about a gift to recognize success and milestones of your corporate employees or favorite clients?

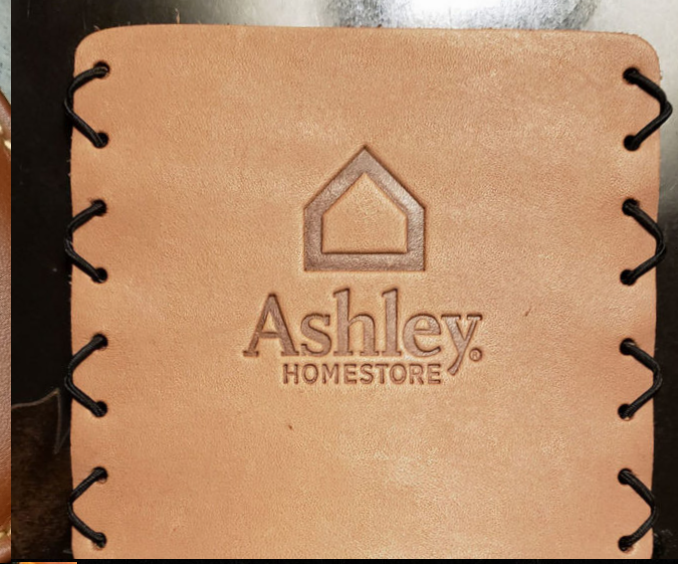

*"If it doesn't move,  
we'll engrave it!"*

# Embossing

Our in-house embossing experts use a traditional hand embossing technique where the letters are heated and stamped deeply into the leather surface and will last for the life of the item. Hand embossing is a time-intensive process that results in a much more distinct monogram than other methods such as machine laser deboss. Your item will be a one of a kind creation right from the artist's hand which you can't replicate with a laser machine.

# Hand Painting

Hand painting activations create a new level of personalization at events unmatched by other companies. Our CEO, Desiree Colonna, is a One Stroke™ Certified Painting Instructor.

Our hand painting artists are some of the best in class and can paint almost any surface including paper, metal, glass, bottles, home goods, wood signs, chalkboard signs, fabric and leather.

# Calligraphy

Calligraphy simply means “beautiful writing.” Our calligraphers use real dip pens and ink as well as other media such as watercolor, paint and chalk. We can create anything from table and seating charts, escort cards, envelopes, invitations and so much more. Everything is handwritten, handmade. Your invitations and envelopes are the first impression of your event and set the tone for the rest of your printed materials.

# On-Site Events

On-site engraving events, hand painting, calligraphy and embossing experiential marketing activations are a powerful way for brands to sell more inventory and provide trade show guests with a beautiful gifting experience. Our on-site events are a way to keep your brand or booth interesting and fun. Our activations compel people to stay longer to watch our work giving you the perfect sales opportunity.

★★★★★ My company hired Inkwell Designers to do live embossing at Dreamforce in San Francisco, and they were a hit! This activation drew people into our space to get their own monogrammed leather luggage tag. For 3 days straight, 8 hours each day, the line was a 10-15 minute wait. In line, people networked and took in our immersive space. They were a highlight for our guests, for sure! Desiree and Joe were very easy to work with and I highly recommend them for events!
